

4-Port Ethernet Interface

VIDEO 3 SYSTEM COMPONENT

- **Industry standard 10BaseT Ethernet Interface (IEEE 802.3 Compliant)**
- **4-port hub/bridge**
- **Standard 3U VME Plug-in**
- **Operation in Harsh Environments (-20° to +85° C)**

Description

The 4-port 10BaseT Ethernet interface board provides the user with a direct network connection between networked devices on the surface and subsea in the ROV. This solution integrates a 4-port hub and a WAN-LAN (wide area network – local area network) bridge onto a single board.

Specifications

Number of channels:	Four 10BaseT ports
Cable Type:	Category 5 (CAT 5) with RJ-45 connector
Data Rates:	10.0Mbps
Format:	3U VME
Power:	+5VDC @ 470mA
