**VIDEO 3 SYSTEM COMPONENT**

- **Standard 3U VME Plug-in**
- **Sonar & Hydrophone Signal Activity Indicator LED**
- **Operation in Harsh Environments**  
(-20° to +70° C)
- **Custom Interfaces Available**

### Description

PRIZM's Sonar & Hydrophone Interface Cards are designed specifically for industry standard equipment. All interface cards are powered by the PRIZM VME-bus backplane. They are available for use with the PRIZM Video 3 multiplexer system. PRIZM can provide custom interfaces as required. Prizm's family of interface cards provide full-duplex operations, sonar & hydrophone data uplink and controls signals downlink.
